

OUR COMMITMENT FOR YOUR SAFE HOLIDAY

All our staff will be tested with the Covid19 serological test before coming back to work.

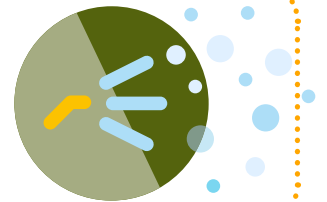

Every day we will measure the temperature before starting the work day and on request, also our clients will be able to do it if they wish so.

We will all wear surgical masks for the entire day and also the other clients will have to do so in the communal spaces.

We will place several hand and ambient sanitizer in strategic points of the building for clients and staff use.

After the usual cleaning we will sanitize with specific products and moreover we will pass every surface with a dry steam machine enriched with another sanitizer.

All the external spaces in the garden will be sanitized from our staff with specific products and using a nebulizer.

Breakfast and afternoon tea will be served by our staff and not at buffet. We will keep the same quality and choice of our famous buffet breakfast.

In cooperation with the Agriturismo Cà Sottane and the Pizzeria Le Logge you will have the possibility to order your dinner and enjoy it on our terrace or in your room.

We will organize faster check in and check out operations to avoid to have many people in reception; all our internal and external spaces have been distanced by at least 1 meters from each other.
